

Polyco Healthline Group Ltd is committed to our Corporate Social Responsibilities, fully recognising the impacts our services and products may have on the environment and community. Polyco Healthline Group Ltd is committed to exploring ways of reducing the impact of the business and to take a responsible attitude in developing initiatives to ensure a fair and sustainable operation. To achieve this, we will;

- Build and develop long-term relationships with both internal and external customers and suppliers ensuring fair and ethical trade by implementing our Ethical Trading Policy.
- Explore ways of reducing the environmental and social impact of the business through responsible manufacturing, using renewable resources where possible, and developing initiatives as detailed in our Environmental Policy.
- Ensure a sustainable purchase programme providing continuity and ongoing supply utilising primary and secondary suppliers.
- Support the sustainability of both global and local communities, through project research and development, investment and sponsorship and charity initiatives.
- Care for our employees, offering a safe, fair and rewarding workplace with an excellent benefits package where employees are valued and listened to.
- Develop and implement a business continuity plan with business risk assessment analysis.
